WEST NILE VIRUS POSITIVE DEAD BIRD RUNNING SPRINGS AREA

A dead American robin collected from the Running Springs area by the San Bernardino County Vector Control Program on July 27, 2006 has tested positive for West Nile Virus (WNV). The robin was reported from the 30900 block of Glen Oak Drive. This is the fourth bird in San Bernardino County this year that tested positive for WNV, and the second time that WNV has been detected in the mountain area. The first WNV-positive bird detected in San Bernardino County was an American robin collected on July 11, 2006 from Lake Arrowhead. No human cases of WNV have been reported this season in San Bernardino County.

--more--

San Bernardino County Vector Control Program (VCP) is trapping for adult mosquitoes for virus testing purposes in the area where the bird was found and Vector Control staff will continue to canvass the area, look for, and identify and treat mosquito-breeding sources. The San Bernardino County Vector Control Program also will continue surveillance and treatment throughout the County for WNV.

It is important that County residents understand how to protect themselves from mosquitoes and West Nile Virus so they can enjoy outdoor activities. County residents can **Fight the Bite by following the**

5 Ds:

- Drain or Dump...**Remove all standing water around your property where mosquitoes lay eggs such as birdbaths, green swimming pools, ponds, old tires, buckets, clogged gutters, or even puddles from leaky sprinklers.

- Dawn and Dusk...**Avoid spending time outside when mosquitoes are most active.

- Dress...**Wear shoes, socks, and long pants and long-sleeved shirts that are loose fitting and light colored.

- DEET...**Apply insect repellent containing DEET according to manufacturer's directions.

- Doors...**Make sure doors and windows have tight-fitting screens. Repair or replace screens that have tears or holes to prevent mosquitoes from entering home.

If you have questions or concerns or if there is a significant mosquito problem where you live or you have standing water or green pools in your area, call San Bernardino County Vector Control Program at 800-44-ABATE (800-442-2283) or 909-388-4600. If you are in the cities of Chino, Chino Hills, Ontario, Montclair or Rancho Cucamonga call (909) 635-0307 for West Valley Vector Control District.
